GOVERNOR COX STIRS AUDIENCE WITH WORDS

"Americanization Night"
Meeting Surpasses Expec-
tations of Promoters

"There never was, anywhere, an occasion just like this," was the remark of Ohio's governor, James M. Cox, last night at the opening of his address to the largest audience ever assembled in the Newark High school auditorium, upon the occasion of a celebration of what was termed by those who had the affair in charge, "Americanization Night."

The words of the governor found acquiescence in the minds and hearts of every man, woman, and child in the audience. It was a wonderful meeting. The central idea was unique and had a new meaning to the outpouring of a patriotic broad, unselfish and genuine. It was not that the narrow, bigoted kind that can embrace only one class of our countrymen in its conception, but imbued with a spontaneous and unreserved welcome to all of whatever race, color, or creed who are willing to learn, and adapt to their daily lives the genius of American institutions.

The meeting was wonderful from the standpoint of numbers, the auditorium being packed and many being turned away. It was wonderful, viewed from the angle of its cosmopolitan makeup, representing every phase of Newark's social, industrial, women's club, and patriotic activities.

It was a wonderful meeting when its significance is considered and had the stamp of state approval by the governor's attendance. But all this is but leading up to the meeting itself which must be described.

"Americanization Night" was conceived of as a patriotic community meeting, to be in the nature of a "Thanksgiving for the privileges of American citizenship on the part of those who possess them, and an encouragement and assurance of a welcome to those born under other allegiances, who are seeking a home under our flag. The idea after its conception developed rapidly under the influence of co-operation upon the part of the Chamber of Commerce, (Civic Bureau and Membership Council), city schools, Hetuck Chapter, Daughters of the American Revolution, G. A. R., Women's Relief Corps, Federation of Women's clubs, Rotary club, Public Welfare association, Boy Scouts, various patriotic and civic bodies, and societies of foreign born peoples of Newark.

George H. Mosser, manager of the Chamber of Commerce, from the beginning has been a firm believer in the good results of such a meeting and worked indefatigably for its success. To him ungrudgingly is given a large part of the credit for the glorious outcome. Others, however, who aided in the preparation (Continued on Page 8, Col. 3.)

WARDROBES MAY SUFFER FROM THE INSPECTOR'S WORK

(Associated Press Telegram)
Haitfax, N. S., Feb. 22.—One of the German embassy secretaries returning to Germany with the former Ambassador Von Bernstorff on the steamship Frederick VIII which is being examined here by British authorities on her voyage from New York to Copenhagen is reported to have 200 suits of pajamas in his possession. In the baggage of nearly all the other members of the party, cotton goods, known to be scarce in Germany are plentiful. Customs inspectors have discovered in view of the close association between cotton and explosives it is understood that the examiners will take some of the excess clothing from the Germans and make an allowance for it.

It is learned also that the Germans are well supplied with gold. As this is contraband it is believed it will be exchanged into some form of currency less useful to Germany. The care with which the Frederick VIII's passengers are being watched is shown by the fact that the customs guards are kept on the ship so as to avoid any possibility of messages being taken ashore. It was learned today that the customs men themselves are kept under surveillance by secret service agents and forbidden to converse with passengers.

Passengers were obliged to sign waivers, releasing the company from responsibility for any loss in event the ship was sunk by a mine or submarine.

She has a general cargo and two tons of dispatches from the American embassy in London. For the state department, among them being many important documents forwarded from American embassies and consulates in nearly all the countries of Europe.

SECURE PEACE BY PREPARATION FOR WAR, SAYS TAFT

This Lesson From Washing-
ton Applies In Present
National Crisis

OUR RAILROAD SYSTEM INADEQUATE IN CRISIS

Warnings In Past Vindi-
cated By Conditions Now
Prevailing In America

(Associated Press Telegram)
Baltimore, Md., Feb. 22.—The birthday of George Washington never comes without finding in our national affairs an issue, and sometimes a crisis, in meeting which we can derive and from Washington's advice, his experience or his action, former President William H. Taft, declared here today at the annual commemoration day exercises of Johns Hopkins University. The subject of his address was "wise and unwise extensions of federal power."

"As we stand on the brink of hostilities with Germany and with Austria," Mr. Taft added, "his injunction to the American people that the best mode of securing peace is proper preparation for war comes home to us."

Mr. Taft spoke of the birth of this country's railroad system and said:

"The inadequacy of our railroad system to meet the demands of our rapidly increasing population and the volume of transportation that our foreign trade demands, and then meet the requirements of a state of war which we face, is startling. We have had many warnings from railroad men as to what would occur under conditions like the present. Their warnings are now being vindicated. The embargoes which the railroads have been obliged to impose on legitimate shipments are a mathematical demonstration of how far short is our arterial system of interstate commerce."

Referring to national prohibition the former president said he did not want to put himself in opposition to prohibition in states where a majority of the people favored it. He thought it fair, however, "to cite the instances of failure in this regard in some parts of such states as an a fortiori argument to show the failure and the demoralizing effect that must attend an attempt by the national government to enforce prohibition in what are now non-prohibition states."

Mr. Taft said he fully approved the local option system.

America Painfully Exact In
Dealings With Central
Powers, Writer Says

(Associated Press Telegram)
Berne, via Paris, Feb. 22.—Austria's reply to the United States' denouncing her position in the submarine war is known in Berlin according to the Frankfurter Zeitung which predicts that a breach of relations between Washington and Vienna is inevitable. The paper's Berlin correspondent says: "The memorandum which President Wilson has sent to the Vienna government leaves no doubt that the breach of relations between the United States and Germany will soon be followed by a breach with Austria-Hungary. President Wilson wishes to be clearly told whether the Austro-Hungarian government has withdrawn its earlier declaration regarding the conduct of submarine warfare. Really one ought to think that the explanation given by Austria-Hungary at the beginning of the unrestricted submarine warfare to the effect that from Feb. 1 all ocean traffic in the blocked zones will be prevented by all means, should not be capable of misconception. But in his dealings with the central powers President Wilson is always painfully exact."

"It is true that we have not heard that he ever sent cautions, let alone warnings to the entente for torpedoing Austrian or German ships without warning, but when Germany or Austria do the same thing, President Wilson raises his voice in the name of humanity and civilization. The Austro-Hungarian government will answer President Wilson's memorandum and what this answer will be is known. Mr. Wilson will be able to draw his conclusion therefrom and will break off relations."

INCENDIARY STARTS SEVEN FIRES; LOSS WILL REACH \$35,000

(Associated Press Telegram)
New Britain, Conn., Feb. 22.—Martial law in effect prevails here today and the patrol of companies E and I, First company National guard, called out by Governor Holcomb, will probably continue for several days. Guards around the large manufacturing establishments have been reinforced. These precautions have been taken because of seven fires here last night, six of them of incendiary origin. The other fire was due to accident.

All the fires were within a restricted area, from three hundred yards to a quarter of a mile from each other. The property losses run from \$25,000 to \$50,000.

Seven men arrested as arson suspects have all been released. Neither the police nor firemen have any clue to the incendiary or the exact means used to start the fires. One theory is that a mental defective is the responsible person.

Firemen and equipment from four other towns gave protective duty. One fire destroyed a barn in the rear of the New Britain Herald plant. The newspaper staff left last night.

WILSON SALUTES FLAG IN PLEDGE OF ALLEGIANCE

Takes Part In Patriotic
Ceremony at Washing-
ton On Holiday

PRESENTS MEDAL TO BOY FOR ESSAY ON HISTORY

Senator Pomerene Flays
Pacifists In Address In
Memory of Washington

Washington, Feb. 22.—President Wilson participated in George Washington's birthday exercises here today, at which frequent reference was made to the present international situation.

"It is much less of an adventure to write history than to try to enact it," said the president in presenting a gold medal to a school boy for writing an essay on history.

The president pledged allegiance anew to the American flag and with the remainder of an audience, including members of the cabinet, diplomats and congressmen, he stood at salute while the pledging allegiance was repeated. The exercises held under the joint auspices of the Daughters of the American Revolution, the Sons of the American Revolution and the Sons of the Revolution, were marked by an outburst of patriotic fervor when President Wilson appeared. A huge American flag was displayed and the marine band played the Star Spangled Banner.

Reference to the traditional friendship between the United States and France was made by Newell B. Woodworth of Syracuse, N. Y., past president of the Sons of the American Revolution, while Jules Jesserand, the French ambassador stood and acknowledged applause. Mr. Woodworth declared that in the present situation the people stand patriotically behind their president and are ready to answer any call for the nation.

Senator Pomerene of Ohio delivered the principal address.

Senator Pomerene denounced Germany's submarine campaign and assailed pacifists who are urging a referendum on the question of war. "I hope that they will make an arrangement under which the enemy will do no shooting until the vote is taken," said the senator.

Senator Pomerene said that both Germany and Great Britain had violated American rights, but that only Germany had sacrificed American lives. He urged all Americans to stand behind the president in the present emergency.

Pickets Attack Women Who
Buy In Stores Where the
Prices Are Raised

(Associated Press Telegram)
Philadelphia, Feb. 22.—Disorderly scenes occurred in the southeastern part of the city populated largely by people of foreign birth today when bands of women made demonstrations against dealers that have raised food prices. In a melee between a crowd of women and others attracted to one of the streets where stores were being attacked, a woman was knocked down, trampled upon and taken to a hospital with a broken leg. The police succeeded in dispersing the crowd without any serious injury being done. Minor disorders occurred in other street of the foreign quarter.

Today's demonstrations are the result of a meeting of women at which it was decided to boycott dealers who increased prices. Women with bottles containing kerosene are alleged to have poured the oil on meats fish and vegetables displayed by dealers and to have attacked curb merchants and push cart vendors. Pickets were established and women who patronized stores where prices were raised were attacked and the articles they purchased taken from them.

Dealers in kosher meat have distributed circulars in the neighborhoods affected, calling for a mass meeting to explain to retail dealers that they are not responsible for the high cost of food. The police say the trouble is an echo of the New York food demonstrations. The disorder had no connection with the strike riot last night at sugar refineries a mile away.

RIOTER IS KILLED.
Philadelphia, Feb. 22.—A food riot not last night by the wives of striking employees of the Franklin Sugar Refining Company resulted in the killing of one man and the serious injury of nine others when the police and strikers clashed near the refinery.

The dead man, Mariquenas Detkoeck, aged 30, fell before a police volley fired as the rioters showered bricks on reserves rushed from City Hall. Mounted Police Sergeant Jolly's jaw was broken by a brick as he galloped toward the strikers. John Bromley, a spectator, was shot in the stomach by a patrolman.

The women's demonstration, which reached a climax in the riot, followed a meeting held late yesterday. The wives, mothers and daughters of the strikers determined to march in a body to the refinery and demand that the concessions sought by the men be granted. As they marched through the street the women cried that they were starving.

The women were led to the refinery by Mrs. Florence Shadle, 32 years old, who carried a baby in her arms, as she shouted encouragement to her followers. During the melee, as the police were about to open fire on the strikers, who ran to the aid of their women folk, a patrolman seized them. (Continued on Page 2, Col. 2.)

(ASSOCIATED PRESS TELEGRAM)
New York, Feb. 22.—Reports that the big White Star line steamship Celtic had hit a mine February 14 and was towed back into Liverpool in a damaged condition, were brought here today by passengers on the American line steamship Philadelphia, also from that port. The Philadelphia, the passengers said, sailed about thirty minutes after the Celtic and the British steamship Canada, a troop ship. Wireless calls from the Celtic asking for aid are said to have been picked up by the radio operators on the American liner, which, however, did not respond, as the Canada was already reported to have reached her. The Canada, it is said, towed the Celtic back to Liverpool.

SIX AMERICANS WERE ON BOARD SWEDISH STEAMER SUNK BY SUB

(ASSOCIATED PRESS TELEGRAM)
Washington, Feb. 22.—Sinking by a German submarine of the Swedish steamer Skogland, which had five Americans aboard, after the crew had been given ten minutes to take to their boats was reported by Consul General Hurst at Barcelona, Spain, in a message today to the state department. No one was injured and the crew landed safely at Tarragona, Spain.

The Skogland, a vessel of 1,837 tons, net, sailed from Norfolk, Jan. 26, for Bagnoli, Italy. Consul General Hurst in his dispatch said there were 26 in her crew, five of whom claim American citizenship. He gives their names as James Brainer, Brooklyn, N. Y.; Lee Cartwright, Portsmouth, N. H.; Jack Burke, Brooklyn, N. Y.; Jay Lewis, Uniontown, Pa., and Joseph Brown, Elizabeth, N. J.

The Skogland was stopped in the Mediterranean by a submarine six miles south of Tarragona, Spain at 6 a. m., Feb. 18, Consul General Hurst reported, and the crew was given ten minutes to take to their boats. As the crew left the ship, sailors from submarines went aboard and placed a bomb which was exploded and destroyed the ship. The crew landed at Tarragona after 17 hours in their boats.

The Skogland undoubtedly is the same vessel as that reported from Paris, yesterday, as having been sunk Feb. 18. There is a Norwegian steamer Skogland which sailed from New York, Jan. 13, for Kirkwall and Trondhjem.

EL PASO HONORS DEAD ARMY OFFICER; WREATHS PLACED ON HIS CASKET

El Paso, Feb. 22.—The train bearing the body of Major General Frederick Funston to San Francisco arrived in the Union Station yards here late yesterday.

A battery of artillery fired a major general's salute of 13 guns, after which the Twenty-third Infantry Band played a funeral dirge.

Major General John J. Pershing, commander of the Southern department, stood with bare head as the funeral car passed the place where he and his general staff were standing at attention. The Twenty-third infantry was in double files along the track and presented arms, the Eighth Cavalry troops presented sabers, the regimental colors dipped and thousands of civilians stood with bared heads.

Two orders placed wreaths of flowers, remembrances from the city of El Paso and the Daughters of the Confederacy, upon the flag-draped casket in the observation end of the little private car Texas, in which General Funston made frequent trips along the border and in which he lived during the Scott-Oregon conference here last May. After 10 minutes the train departed for the west.

ROYAL COACH HORSES HAUL COAL IN VIENNA; EMPEROR TAKES HAND

(ASSOCIATED PRESS TELEGRAM)
Vienna, Feb. 20. Via London, Feb. 22.—The intense cold weather has passed and a thaw has set in which has solved the fuel difficulty of Vienna and incidentally greatly facilitated the importation of foodstuffs. The flour mills which were shut down owing to frozen rivers are again in operation and full bread rations are once more in force.

Emperor Charles has been a tireless worker in the campaign to relieve economic conditions and the imperial teams are still hauling coal for the populace. The sight of the blooded stock, heretofore only harnessed to state coaches, hauling heavy coal trucks is one of the curious war time incidents in the Austrian capital.

Another result of the monarch's intervention has been that Vienna street cars are still running day and night. Dr. Weiskirchner, the burgomaster, had decided that no cars should be run between 9 in the morning and five in the afternoon. The emperor informed Dr. Weiskirchner that this step must not be thought of and at first the burgomaster threatened to resign. After a talk with the emperor over the telephone, however, the head of the municipality changed his mind. It appears that Dr. Weiskirchner told the emperor that the cars must be stopped on account of lack of coal. He was promptly told that it was his business to find fuel and he did so. In order to avoid side stepping by the city council the emperor himself fixed the number of cars which were to run.

Suffered the Agony Of a Dozen Deaths

MR. F. GIFFORD

Prominent Farmer in Canada Describes His Escape from the Operating Table.

In a letter to friends at Saskatoon, Mr. F. Gifford, of the Ball Rock Farm, Maymont, Saskatchewan, Canada, says: "Thanks to Fruitola and Traxo I am alive. I lay on my back for sixteen days, suffering the agonies of a dozen deaths. I began taking Fruitola and was relieved of a great many gall stones. My health is now fully restored."

Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus laboratories, Monticello, Ill., and can be purchased in drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil and acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alternative that is most effective to rebuild and restore the weakened, rundown system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.—Advertisement.

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50% In One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 15 days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced fierce headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the type on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription. Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With the liquid, bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: Another prominent physician to whom the above article was submitted, said: "Yes, the Bon-Opto prescription is truly a wonderful eye remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mist. I can highly recommend it in case of weak, watery, aching, smarting, itching, burning eyes, red, itchy, blurred vision or for eyes inflamed from exposure to smoke, sun, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto, referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is sold in this city by T. J. EVANS

ZANESVILLE DOWNS NEWARK HIGH BOYS IN FURIOUS GAME

In a game chock full of fire and fast action, Newark High went down in defeat Wednesday afternoon before Zanesville High school's fast quintet by a score of 31 to 24.

The game is one to be remembered, as a thriller. Time and again Newark pulled a brilliant piece of team work that would bring the large crowd present to its feet.

It was Newark High's chief ambition to spoil the Z. H. S. clean slate by defeating them on the Newark floor, and looked for a time as though this would be accomplished, as in the first half Newark played rings around the Zanesville bunch, and the half closed with a score of 14 to 14 in favor of Newark.

In the second half, however, Zanesville seemed to come back with a determination to win, but the local lads clung desperately and maintained the lead until the last five minutes of play when Talley began to get the ball off to Rembold who stopped them in the bucket in every way possible, and the game closed with a final score of 31 to 24.

The Zanesville High school students showed themselves to be loyal by the large crowd of rooters who in a large measure helped in the winning of the game.

The star of the contest was Captain Reinbold for Zanesville, who made 24 points, while the Newark constellation were Mayer, Orr and Hornby.

Coach Livingston of Denison officiated as referee to the satisfaction of all.

The school spirit of the N. H. S. crowd must not be overlooked, as they were full of pep and boosting their team. The yell was led between the halves by Chester Leader.

Newark High will play its last game of the season with the Newark alumni Friday evening in the N. H. S. gymnasium. Fourth and Church at 7:30 p. m.

Also between halves the old "Y" team will meet the present Y. M. C. A. team. These games should be largely attended.

The lineup and summary:

Reinbold, LF Brubaker, C.

Cashbaugh, RF Hornby, C.

Talley, LG Orr, C.

Jackson, LG Emmons, C.

McClann, LG Emmons, C.

Yell, LG Emmons, C.

Mayer, 1. Brubaker, 1. Hornby, 2. Poul, 3. Talley, 4. Talley, 1. Time of halves—20 minutes. Referee—Livingston of Denison.

Mr. and Mrs. Melick departed the same evening on their wedding trip to visit relatives in Indiana and Chicago. They will be at home upon their return at Bladensburg where the groom is employed.

The fourth number of the lecture course will be given Friday evening in the Presbyterian church. Gilbert Eldredge will give his costumed character sketches and impersonations. This is a high class entertainment enjoyed by all.

The boy social and spelling school Friday night was a decided success. A large crowd was present. The boxes sold readily and nearly \$40 was realized for use in the elementary grades.

The L. O. O. F. lodge will hold an oyster supper for its members and their families Thursday evening.

No hopes are entertained for the recovery of Dr. N. S. Toland, who is suffering from mental and physical weakness. He is now unable to leave his bed.

Charles Bair was removed to the home of his parents in Mt. Vernon Thursday by Miller's ambulance. He is suffering with tonsillitis.

Newton Rowley of Chesterfield spent Saturday and Sunday with his parents, Mr. and Mrs. John Rowley. Duralva Trout returned Thursday from Florida where he spent six weeks.

OLD TIME STARS TO MEET YOUNGER TEAM

Y. M. C. A. stars of former years, that quintet which several years ago put Newark on the basketball map in this part of the state, will test their ability to "come back" Friday night when they meet the present "Y" team in a game at the high school gymnasium. At the same time, the former high school stars will meet the present high school team in an exhibition game. Both of these contests should furnish plenty of excitement for the lovers of basketball.

ZIEGMAN WILL KNOW TONIGHT HOW GOOD A MAN BOWSER IS

If there is any doubt in the mind of Henry Ziegmán, Lorian wrestler, as to Paul Bowser's capabilities as a wrestler, it will be removed tonight. When the match at the Auditorium is over, he will know. And it will settle a question which arose in Ziegmán's mind when he met Bowser during the latter's appearance with a carnival in Lorain.

Ziegmán claims he failed to get satisfaction, though some of the Bowser's money by staying the time limit set by Bowser in his challenge to meet all comers.

Whether or not can worry the Newark man in a longer event will be determined tonight. Newark fans do not believe he is heavy enough to do it but the auditorium is confident that he can not only stay, but that he can beat the Newark favorite.

Ziegmán has won many backers since he arrived here Sunday and started training. Railroad men, particularly B. of R. men are interested in the outcome of tonight's event.

Besides the main go, the preliminaries promise more than ordinary excitement. The fans probably will get an opportunity to see Jack Samson, a local amateur, in a 15 minute bout.

Then the Lillian championship of the city may hinge on the result of the handicap challenge hurled by Robert Baughman and Norval Stack to Kenneth Teuscher. The latter agrees to throw Stack and Baughman in a 15 minute engagement.

LAST NIGHT'S PLAY.

Arthur Hammerstein deserves the thanks of Newark theater goers who were present last night at the Auditorium and witnessed his most excellent company present the popular musical comedy, "The Butterfly."

Every member of the cast was equal to the part but the main attraction was Miss Alice Ivan as Katinka, Henri LaRente as Ivan Dimitri, Phil Iviey as Judders Hopper, and American and the comedy roles of Edward Lamber as Herr Knopf and Harry Nelson as Abdul. Clara Palmer as Mrs. Helen Hopper was also delightful.

The musical numbers were all enjoyable but especially so the ever popular "Back to Back," heard in the three acts of the play, the effect of which was being enjoyed a half dozen times and the singers always responded with a willingness, showing their appreciation of their reception.

A pleasing diversion from the score was the two Russian dancers, their highly entertaining.

Manager Penberg of the Auditorium is to be congratulated for bringing the time being high ticket city. It is to be regretted that the audience was not larger as "Katinka" has turned people away in other cities. It was here in months and those who attended are all proud in their praise of Manager Penberg's efforts to give his patrons some of the best things seen in the metropolitan cities.

"Twin Beds."

The jovial, musical comedy of Salisbury Field and Margaret May's delightful comedy, "Twin Beds," will again be seen at the Auditorium theater by a new company under the direction of A. S. Stern & Co., the well known New York producers. "Twin Beds" is a story of a young man who lives in an apartment house and has a consistent and coherent story, refreshing in its originality and constructed solely for the making purposes.

WASHINGTON'S BIRTHDAY

It is rather hard to get up much enthusiasm about our forefathers. Washington's birthday celebrations are often well attended, and the patriotic remarks well received, if the dinner and other entertainment has been good. But it is not known that any audience ever breaks into spontaneous applause at hearing the name of George Washington or any other patriot of his time.

Yet our daily life is no doubt very different from what it would have been had Washington and his associates failed in their revolutionary attempt. To be sure Canada has prospered and attained substantial freedom as a colony. Still its advance is probably largely due to the proximity of the United States. They have caught the flag back of our prosperity and freedom. They owe their advance likewise to the American spirit, which is much the same regardless of boundaries.

Had we remained a colony that American spirit could hardly have developed. We would have looked to the leadership of the Old World, and accepted its traditions with loyal submission. Political initiative would have been checked. When a community's civic ambition is dulled, it must also effect its industrial enterprise and the spirit of achievement. The success of the American Revolution set free vast latent energy. The men who had triumphed over the first army of the world went home confident of ability to triumph over other adverse forces. It gave them the daring to explore the forest, subdue the wilderness, establish new communities, and build social and industrial institutions.

Had we remained a subject colony, it is quite possible that our West today might still have been in the frontier condition it was fifty years ago. So George Washington and the rest of them are not mere names and historical fact, but influence that has vitally affected our living conditions.

Income Tax Returns.
The last of February is an irksome time for many of our higher ups. They feel unhappy about their fortunes, as they fuss and fret and fume over the task of making a federal income tax return. It calls for the untangling of some complicated business problems in many cases. If an error is made, a labyrinth of red tape may have to be unwound to correct it.

It was commonly predicted before the law went into effect that rich people would conceal a good part of their incomes. As you see the satisfaction that many people take in cheating Uncle Sam at the custom house, this seems quite likely. Many persons who would worry over cheating a grocer out of fifty cents are highly gratified to get the better of the government.

Yet severe penalties are enforced for violation of this law, which may well turn back some of our white hairs. They would better reflect that the internal revenue men will be comparing one year's return with another. If there are startling discrepancies, they may have to show in their private accounts. They will be in much better position in this case if they have made up their figures in strict conformity to facts.

There is nothing smart in cheating the government. Temporarily it

leaves a little more money in one's pocket. But if any considerable number of people do it, the resources of the government are depleted. It becomes evident on the face of it that people of wealth are holding themselves above the law.

That creates anarchists and socialists and foments strikes and all industrial disorders. The man who saves ten dollars through a false tax return may live to see his property injured thousands of dollars through the social unrest he has helped to create.

It is hard to realize but nevertheless true, if a statement by so reputable a journal as Collier's can be believed, that the 1916 peanut crop in Texas alone reached a value of twelve million dollars. Let's see, that means two hundred and forty million five-cent sacks which is a pretty good record for one state even if that state is four or five times as large as Ohio.

You can't arouse much patriotic enthusiasm nowadays on the sufferings of the forefathers, but you may be able to stir up some by reminding our citizens of the size of the American pay envelope.

When two drunken roughs punch each other in the street, it is a disgraceful fight; when two professional bruisers nearly kill each other on the stage, it is the gentlemanly sport of boxing.

There is general complaint that the chorus girls and movie stars don't wear enough clothes. Of course if their faces were attractive they wouldn't have to resort to scanty dressing.

That fellow walking along with his head up in the air hasn't a dollar, while that discouraged and down hearted looking creature has just made out a good fat income tax return.

Thirty-six thousand dollars worth of jewelry was stolen from Palm Beach. The millionaires will occasionally leave their more expensive trinkets lying around loose.

It is claimed that the newspaper articles on managing husbands are all written by spinsters. The married women know how, but aren't giving away any information.

Appealing to national honor is no sure to bring results, but wait until people are thrown out of work by interference of submarine warfare with shipment of goods!

One feature of the inaugural exercises at Washington won't cost the taxpayers anything, and that is the long and imposing procession of office seekers.

Being told that they need rest and change, the idle rich now hie themselves to the Southern resorts where they find one more way of doing nothing.

Many people would be glad to oblige Pay Up Week only that they believe on principle that creditors should be taught to know their place.

A man with a good sized roll of ten dollar bills must be ashamed to be caught at an automobile show with such small change.

Owing to the fact that there will be no baseball strike it hardly seems necessary to have an extra session of Congress.

A great many people observe Lent by giving up things that other people like.

OLD-TIME REMEDY

MAKES PURE BLOOD

Hood's Sarsaparilla has been and still is the people's medicine because of its reliable character and its wonderful success in purifying, enriching and revitalizing the blood and relieving the common diseases and ailments—scrofula, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling, general debility.

Hood's Sarsaparilla purifies and enriches the blood, and in so doing, renders the human system the greatest service possible. This medicine has been tested for years. It is perfectly pure, clean and absolutely safe, as well as of peculiar and unequalled medicinal merit. Get Hood's, and get it now from any drug store.—Advertisement.

Did You Know
(But of course you do) that
George Washington was born in
Westmoreland County, Virginia,
February 22nd, 1732? Very little
is known of Washington's early life,
probably because there was little
unusual about it. In 1743 he was
living at Mt. Vernon with his half-
brother, Lawrence, who was his
guardian. At the outbreak of the
French and Indian war Wash-
ington was the agent sent by Governor
Dinwiddie to warn the French away
from their new forts in western
Pennsylvania. The command of
Virginia troops who began hostili-
ties fell to him and made him a
prominent figure. In 1775 at the
age of twenty-three he became com-
mander-in-chief of all Virginian
troops. Upon the death of his
brother Lawrence he became heir to
Mt. Vernon. Washington died in
1799.

Limerick Contest.
Washington's birthday ought to
be a good time for limerick writing.
Anyway the time is growing short
for all limericks to be considered in
this week's contest must be submit-
ted by 6 p. m. tomorrow. The win-
ner gets a dollar. Start this way:
Said she, "There is no use in talking,"

"Hello! Is this 4311?"
"Yes—office of Associated Char-
ities."

"This is Mr. _____ calling.
I wish to speak to Mr. Hopkins, the
Superintendent."

"This is Mr. Hopkins."
"A young woman is here seeking
aid to go to her relatives in another
State. She is ill, has three small
children, and has been deserted by
her husband who brought her here
and disappeared. She grew up here
and is greatly embarrassed by her
position. I am sending her to you
with a note of introduction and the
assurance that she will be cared for
and treated with the kindest con-
sideration."

"Certainly, we shall be glad to
take care of her."
The woman came to the office with
her children. We assured her that her
identity would not be revealed and
then ministered to her needs. Some
articles of clothing were provided
for the children from our supplies, they
were given a warm dinner, and tickets
provided to their destination, with a
lunch for the journey." The little
mother gave us a clue to her hus-
band's identity to aid in his arrest
and promised to refund the entire
expense. Her gratitude was evident.

The confidential exchange main-
tained in our office contains all of
this information and records of
hundreds of cases no less tragic than
this. This treatment often requires
the co-operation of a half a dozen
agencies on a single case, but all
records are carefully preserved in our
Bureau.

We announced in our Christmas
bulletin of 1915 that we stand as
"The agency through which all
charities and charitable individuals
may focus their efforts in behalf of
the needy. We also promised in that
bulletin to refer to the proper agency
all cases for immediate relief for
proper friendly treatment according
to the need. We are your agents,
therefore you have a right to call
upon us to help in your charity work.
We have held strictly to this inter-
pretation of our constitution and
again invite all societies to use this
association in every community
service.

We have many evidences that
the community is coming to under-
stand our purpose. Clubs, lodges,
churches and individuals in an in-
creasing number are learning the
value of a charity clearing house.
At Christmas time we provide names
may focus their efforts in behalf of
the needy. But we prefer that
churches and all societies distribute
their own benevolences as one of
their functions. They need this work
as a bond of sympathy and of serv-
ice.

Then why do we need a central
agency? Let us cite one experience
in reply. Last Christmas we were
requested to furnish lists of names
for a number of societies and indi-
viduals. We prepared them but
held them up for possible revision
until two days before Christmas. On
the day that we promised to dis-
patch them we received a list of some 30
families to whom one society had
that morning distributed baskets.
Comparing these with our list we
found names from four of our lists
and we were obliged at the last mo-
ment to revise all four. Had this
society reported the names in ad-
vance, they would have saved much
work and confusion. Several other
societies gave out baskets without
reporting and when delivery was
made some families received as
high as three baskets while some
others received none.

"But what of it?" some one asked.
Much. It is not the duplication of
baskets. That is the least consid-
eration. The serious result is the
character effect on children whose

INDIA IS TAXED TO LIMIT CHANDRA SAYS

In The Advocate of Dec. 28,
1916, there appeared a statement by
Sir William Meyer, Minister of Fi-
nance for India, forwarded from
Simla, by the Associated Press. This
article brings from Ram Chandra,
editor of the Godar, a San Francisco
publication in the interests of
Hindus, a statement that is in-
tentious misleading.

The story says that "India is one
of the most lightly taxed countries
on the face of the earth * * * that
total revenues for the current year,
amounted to \$6,500,000 pounds, a
contribution per capita of only 7
shillings.

Chandra says the statement as a
whole is designated to convey the
impression that all she ought with
India financially; that she will be
grateful to England, her master, for
taxing her so lightly.

He says the severity of taxation
is to be judged by the ability of the
people to pay. No matter how light
the taxes are, they may be tyrani-
cal and destructive. Sir William
Meyer omits to mention that the
income of the inhabitants of India,
according to Sir William Digby, is
only \$5.00 per capita per annum.
This means that the present taxation
absorbs one fifth the total income
of the country. As nearly the entire
population of India is in abject po-
verty, the imposition of such a tax
can only result in famine, plague
and desolation. Instead of any re-
lief being offered, the tax is in-
creasing.

The increase for last year, Chan-
dra says was \$54,966,566.

Hindustan is an extensive agricul-
tural country, he says, the average
land produces two crops a year,
and in Bengal there are lands which
produce three a year. Bengal alone
produces such large crops that they
are quite sufficient to provide all
the population of Hindustan for two
years.

"Between Two Lives," a 3-act rural drama, 11 characters, will be produced at the hall here Saturday night, February 24 by the Purity Dramatic Club.

This place is going out of business, this week. Our blacksmith, Will Harris, is moving to Newark, and our groceryman, H. L. McPeak, has sold his stock of goods to Frank Coad, who is moving to St. Louis, Mo., where he is opening a store. Mrs. Frank Taylor returned home Thursday from spending a week at the home of her son, James Taylor, in Akron.

PADDY LIVINGSTON, VETERAN CATCHER, JUST CAN'T BE KEPT OUT OF THE MAJORS.

Paddy Livingston.

Paddy Livingston, veteran catcher, simply can't be kept in the minor leagues. Every once in a while it looks like he is through as a big leaguer, but he's sure to come back. Last season he caught for Sioux City in the Western league and batted 200 with many extra base hits. And now the St. Louis Cardinals have signed him up for next season.

SPANISH POLICE HOLD SUSPECT; FIND PLAN TO SUPPLY U-BOATS

Paris, Feb. 22.—Details of the arrest by the police of Cartagena, Spain, of a man giving the name of Wood and calling himself American, are contained in a telegram forwarded here by the correspondent at Madrid of Le Journal. After his arrest, Wood received the protection of the German consul at Cartagena who said the presence of the man at that seaport was inexplicable in connection with the discovery off the coast of a ship's boat marked U-19.

The Cartagena police, the correspondent adds: supposing that Wood had disembarked from a submarine, searched the roads and found a number of boxes to which were attached 30 boxes covered with water proof cloth and containing dynamite, gun cotton and gasoline.

Tranquility of Liszt.
Liszt was a sweet souled character. One day two of his friends, musicians, resolved to put the maestro into a passion. "Which one of his habits," they inquired, "would most seriously trouble him were he deprived of it?"

"Perhaps," was the answer, "he would suffer most if deprived of a well made bed."

The two confederates, with a lous, bought over a servant to their designs. She was not, it was agreed, to make his bed for that night.

Liszt slept badly and the next morning simply said, "You have forgotten to make my bed."

For two days following she neglected making the bed, and on the third day the maestro simply said: "I see that you have decided not to make my bed. Well, let it alone. I have come to accustom myself to it."

Shoes That Do Not Wear Out.
Esparto shoes, or shoes made of the toughest and strongest of the coarse esparto fibers, are still worn in Iberia and parts of Portugal. There is no shoe made which will outlast them, not excepting leather shoes. Indeed, one pair of esparto shoes has been known to outwear a dozen tanned hide shoes. This is due to their faculty of picking up and retaining in their interstices stony particles. As fast as the pebbles are worn out they are replaced automatically by others. Thus a self soiling process is constantly going on. It is not uncommon in some parts of Spain or Portugal to hear the natives boast of wearing a pair of esparto shoes for twenty-five years or more.

SPRING COLORS GOLD AND GREEN ARE NOW SHOWN

Fashion's fancy has taken for the color theme this spring, gold and green and the different shades of these colors are developed in the beautiful spring garments which range in color from green to gold and from gold to green. The opportunity to compare the colors in their beauty is given in the windows of Regan, Loar and company, where one window shows the creations in gold and the other those in green. Much attention was attracted by this early spring display and it is hard to prophesy which color will be the more popular.

Coats and suits cloth seem to vie for favor and one of the pretty things shown in the green window was a borella cloth coat with white buttons. Other showings are made of wool jersey, velours, and Bolivia coats, some with touches of embroidery, but the greater number of spring garments depend for distinction and style entirely on heavy stitching, great, broad collars, inconceivably arranged pockets and straps and belts of the same material.

AN ASYLUM FOR THE OPRESSED OF ALL NATIONS

(Continued from Page 1.) of the program, and in fact did anything toward accomplishing results, should take the credit acknowledged to be their due.

The Civic society of the High school elaborately decorated the stage and auditorium. The High school orchestra under the direction of C. W. Klopp, supervisor of music, donated its services, inspired the occasion by playing patriotic music and leading the songs by the audience.

The Old Guard and drum corps in full uniform, under command of Captain Matt Bausch, honored the Governor of Ohio and the occasion by their presence, marching from their headquarters to the high school.

Professor H. F. Moninger, director of the night school for foreigners, Miss Bertha Crilly, who directed the historical pageant, W. E. Hookins, head of the Boy Scout movement in Newark, and others lent their efforts and may rest assured that to each belongs a meed of praise for the success of the undertaking.

Hon. Edward Kibler was presiding officer of the evening, and announced that the meeting would be opened with prayer by Rev. Don Tullis, pastor of the Second Presbyterian church. After several patriotic numbers had been sung by the audience, led by Prof. Klopp, and the orchestra, the stage was cleared for the Boy Scouts' maneuvers.

A little drill demonstrating the first aid to one with a fractured leg. The leg was splinted and the patient released upon a litter constructed with the coats and belts of the scouts. The next was to show the proper manner of rescuing persons from burning buildings; the first method being by carrying an injured, the second by dragging an unconscious person to safety. These stunts were a revelation to most of the audience and were greeted with the applause they deserved.

Senator J. Henry Miller, Democratic floor leader in the Ohio general assembly, elicited a storm of applause especially from the female contingent of the audience in his very first sentence introducing Governor Cox, which was to the effect that at three o'clock in the afternoon, the bill had become a law, granting women the right to vote for presidential election, by the executive signature. Senator Miller was active in his support of this bill, and generally is given credit for its passing the senate where the vote was very close.

"When I was invited to make an address to this meeting, I told those having it in charge that I could do better than was asked of me," said Senator Miller, "by securing a much better speaker and to show that I succeeded, I have the pleasure of introducing Ohio's honored governor, James M. Cox."

The hall resounded with applause when Governor Cox came forward and began his address. He said in part:

"I am glad to freely avow that the power and persuasiveness of the personality and eloquence of your representative in the senate, dragged me away from executive duties of importance, to this meeting. And I am glad I am here."

"Some people think public men carry along with them all kinds of canned oratory, some of which is suitable for any kind of an occasion and can be released like the record of a phonograph."

"It is often necessary, I admit, for a governor to change reels. But I have no speech for tonight for the simple reason that there never was an occasion anywhere just like this one."

"I want to to congratulate you first upon the purpose and significance of this event. After all it makes no difference under what flag we have been born. We have come to an awakened consciousness that we all are Americans. How typical of American institutions this meeting is! How we can ponder upon the real significance of our hearts and souls yielding up that sentiment we call patriotism. It was born on this soil amid many trials and vicissitudes which make such a time possible. Here in historic Licking county, then which no part of this land gave more freely and largely of men when Lincoln called for troops to preserve this nation I come to address you who are seeking to become citizens."

"Upon this soil consecrated by patriotic birth to all people of foreign birth to follow in the footsteps of the hundreds of thousands of your predecessors who came to our shores and became one with us by the process of amalgamation."

"On a Sunday morning we hear the church bells call people from all directions to worship in churches of different denominations; in times of political turmoil men become wrought up by political differences, but they are citizens of a common country."

"As men go past your window to

their work, you may see the conny Scot, walking side by side with one whose forbears fought with Wellington. A man whose ancestors may have followed the Eagles of Frederic the Great, may be working upon the same job with another whose forefathers followed the fortunes of Napoleon. There may be wide differences between them upon religious and political creeds, but in time of national stress they all gather around the shrine of our country and every heart vibrates to the strains of 'America.'"

"Why does the flag take such a hold upon our minds and hearts? The blow may be of more practical use than the old musket, yet the sons of him who carried it, and the sons of these sons would not give that old musket for all the farm implements in Licking county. It stands for sacrifice, and so with our flag, it has been bathed in blood and dieneched with the tears of women of three and four generations. Men have given their lives for this flag as representing that form of government they would have live."

"God in his wisdom centuries ago added to the store house of minerals, gave the subtle touch of fertility to the soil, the shape and poetry to the mountains of this country and when Columbus first saw this hemisphere he was an instrument of the Almighty. God's object was that an asylum was to be builded where the oppressed of all the world might come; that here would be established the greatest form of government ever conceived by the human mind, and that millions of foreigners should come and pass through the melting pot of our churches, schools and industries, to emerge that product, an American citizen, the example and inspiration of all the world."

"A king cannot here order men to the trenches of death by his own mandate. Fourteen millions of men have been called to the standards of the powers of Europe. Under our form there is no resort to the arbitrament of violence until the arbitrament of reason has exhausted all its resources, and then only by the consent of 100,000,000 free men."

Turning to the 15 foreign born people upon the stage Governor Cox said to them:

"Your children enjoy the same privileges as those of the rich, your boys have the same opportunity to become President of the United States as did George Washington or Abraham Lincoln. Your persons and property are protected and any violation of these rights will be resisted, if necessary by the entire military power of this state, if you have the purse of the rich or dwell in the cottage of the poor."

"We care not what religion you profess, to what school of politics your fathers have yielded allegiance or what blood you are. But we do exact good character and demand that in your minds there dwell no thought of any flag than 'Old Glory.'"

Governor Cox paid a high tribute to the Old Guard, the members of Company G, sitting before him, saying the whole state of Ohio was proud of them. He also paid eloquent homage to the memory of Abraham Lincoln, whom he denominated the greatest human character since Jesus, and possessed of a divine inspiration.

"I feel sorry for the man who cannot see behind every governmental epoch the design and purpose of almighty God. I need not remind you that the fathers who founded this government were inspired by an influence coming from beyond the skies and so it was with Lincoln, who had thrust upon him the task of abolishing human slavery, and establishing a great universal brotherhood of kindness."

In glowing words that received unanimous approval from the audience, Governor Cox spoke of President Wilson as follows:

"I yield thanks to Almighty God that we have a leader so devoted to the ideas of peace, that he will not give them up, until peace cannot be maintained longer in honor. When he tells us that our concept of national integrity has been assailed and the limits of all forbearance have been reached, every American mother will give up her boy to maintain the American ideals, although it breaks her heart to do so, and Licking county mothers will do as they did over half a century ago."

At the conclusion of his address, Governor Cox was given an ovation, and he left to catch the 9:45 train to Columbus.

After the governor left, H. T. Moninger gave the history of the night school for instruction of foreigners in American customs and the use of the English language. He complimented the industry and conduct of the men who attended the school, and said the results were of great benefit not only to the learners but to the community.

Fifteen of his pupils had chairs upon the platform and two were introduced, one of whom spoke six languages, another seven languages, and a dialect. Both spoke good English.

The last number on the program was announced by John Kipatrack of the sophomore class as a Historical Pageant, which was put on by the young men and women of the sophomore class of Newark High school, under the direction of Miss Bertha Crilly. Those who took part were: appropriate costumes and did the parts assigned to them very well indeed. Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scour robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flinch and loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—Advertisement.

PLAIN QUESTIONS TO NEWARK PEOPLE

Every Newark Reader Will Admit the Soundness of the Logic

Would Newark people recommend Doan's Kidney Pills as they do if the medicine were not reliable? Would they confirm their statements after years have elapsed if their experiences did not show the remedy to be deserving of it? Statements like the following must carry conviction to the mind of every reader: C. L. Starr, harness maker, 28 W. Church St., Newark, says: "I suffered for years with kidney complaint. The misery and weakness across my loins was with me night and day. If I attempted to stoop a pain struck me and I almost fell. If I was in one position long, any move would be painful. Doan's Kidney Pills knocked the backache out of me and fixed me up in good shape."

STILL USES DOAN'S Over nine years later, Mr. Starr said: "Doan's Kidney Pills fix me up in good condition whenever I have an attack of kidney complaint." 50c. at all dealers. Foster-Milburn Co., Mfgs. Buffalo, N. Y. (Advertisement)

AMERICA RESPONDED WELL TO APPEAL FOR RELIEF OF BELGIANS

The manner in which Americans are responding to the appeal of Funk & Wagnalls for funds to stop the starvation of Belgian children is cause for great satisfaction and just pride to all Americans.

Never has America responded more nobly to any call of distress than in this instance.

The first appeal appeared in the January 20th issue of the Literary Digest, and by February 6th there had been received by the originators of the fund over \$200,000, and this can only be considered as the start.

However, when it is remembered that over twelve millions must be given if the children who are dependent on the American Commission alone are saved from starvation during 1917 it will be seen that we must all do our utmost to help.

Not only individuals have given generously to this cause, but organizations, corporations and whole towns and cities have participated. Over six thousand dollars was given by the employees of the Literary Digest, payable in twelve monthly payments of five hundred and twenty-six dollars each.

The Colorado Lumber Dealers' Association voted to give five per cent of their gross sales on a set date; the Protestant churches of the village of Houstonia, Mo., sent \$124.20. The office employees of the U. S. Reclamation Service at Denver gave \$58.

Speak to your neighbors about it tonight and again tomorrow that none may forget.

The great need of the committee at this stage of their work is the names of school boys who will bring the papers of the side streets to the main routes of collection of old newspapers and magazines. If some young women or mothers mayhap can enlist the services of a group of boys in their neighborhood for this work Saturday morning and will let Mr. Kent know of the fact at Auto Phone 1322, it will be a mighty service to the committee.

NO CRUTCH OR CANE RHEUMATISM GONE!

Are your muscles sore and swollen? Are your joints stiff and painful? Are you all crippled up with rheumatism and can't get around without crutches or cane? Then stop rubbing the outside. Get at the inside—go to the seat of your terrible affliction. Remove the cause—dissolve the uric acid in your joints and muscles—root them from your system—be free from pain and ache and suffering.

For many years Dr. Whitehall, of South Bend, Ind., has been a rheumatic specialist. Twenty-six years ago he gave to the people the formula he used so successfully in treating various forms of rheumatism. Countless numbers of people have found relief from their trouble, and today Dr. Whitehall's Remedy is sold by druggists everywhere for only 50c a package.

When relief is so near at hand and the test cost so little, no man or woman should neglect to take this remedy, that may mean complete deliverance from their torture and suffering.

Good Old Home-Made Family Cough Remedy

Much Better than the Ready-Made Kind—Easy and Cheaply Prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare. Get from any druggist 2 1/2 ounces of Pinex (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 64 cents and gives you a full pint of really better cough syrup than you could buy ready-made for \$2.50. Tastes pleasant and never spoils.

This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle, and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, gently and easily that it is really astonishing. A day's use will usually overcome the ordinary cough and for bronchitis, croup and whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with gualiac and has been used for generations to break up severe coughs.

To avoid disappointment, be sure to ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arsenic from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single scale and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.
